CP CMS680E Tamper

Strike Fast, Hit Hard

The CP range of Tampers is made for one of the toughest conditions within construction. The Tampers are well balanced machines, making them easier to work with & above all, we are talking about machines that can withstand really rough & tough treatment.

The Construction Goal : Durability

When designing the rammers, durability & reliability was top of the list of demands. The metal frame is extra strong & the units are designed with efficient shock absorbers. The engine is the only part that needs regular maintenance, resulting in easy service

Optimum Compaction Result

As important as durability is, of course, the compaction capability. The Tampers have good traction & are fast & easy to handle. They are constructed for force & hitting power, offering high productivity. The bottom plates are interchangeable

CP CMS680E Tamper	Operating Weight Kg	Centrifugal Force kN	Jumping Stroke (max) mm	Plate Size mm	Fuel Tank Capacity L	Engine Model	Rated Power kW	Impact Number (p/minute)	Dimension mm
3312 5005 39	72	13.7	85	285 x 345	2.3	Honda GX100	2.2	640-680	425 x 740 x 1095
