CP Red Hawk Road

The Red Hawk Road is the true heavy hitter in CP's Red Hawk range. The unique design combines an ultra-compact 32 x 160mm shank with 60 J of power at the tool tip, delivering enough impact energy to handle silica-rich rocks & reinforced concrete. It all adds up to the same power-to-weight ratio as many pneumatic & hydraulic breakers, but without being tied down to a power source or hoses. Applications include breaking concrete & asphalt, sidewalk service, pothole repair/tamping, installing post signs/barriers & fences
