CP 0009 Hammer Drill

The CP 0009 is the “mother” of small rotary drills. It must be one of the most copied air tools available on the market because no other design could match such a performance for such a small, easy-to-use drill. This is a key product that has made Chicago Pneumatic the leading brand of air tools

Key Features

- Excellent power-to-weight ratio to drill holes more easily and faster than with comparable electric rotary hammers
- Quick-release retainer for changing the drills simply and quickly to suit all different types of drilling & chipping applications
- Built-in oiler provides continuous lubrication
- Teasing throttle for precise control
- Low air consumption
- A and F versions feature a rotation release button, converting the machine from a drill to a chipper
- Cushioned piston for smooth operation and longer machine life
- Muffler available to reduce noise
- Right-hand rotation
- Equipped with an SDS adaptor, CP 0009 a, ac and cs can be used with electric hammer drill bits
- The CP 0009 is used for drilling holes from 8 to 25mm in diameter, and up to 300 mm in depth. However, above 25 mm in diameter, we recommend first performing a test to prevent excessive wear
- Small, easy to handle

Model	Weight (kg)	Length mm	Max Drilling Dia.	Max Drill Depth	Air Consumption l/s	Blows Per Minute (BPM)	Vibration Level 3 Axes (ISO 28927-10) Breaking/Drilling	Sound Pressure Level (ISO 11203) dB(A)	Air Inlet
CP 0009	4.5	380	32mm	450mm	9	3420	20,2/21,2	88	3/8" BSP
