DIP 35 Screamer Pump

DIP centrifugal pumps are specially designed for relatively clean low-viscosity liquids such as water, cooling fluids, solvents, light oil or petrol. A specially designed rotating mechanical seal prevents leakage.

- Flexible – three pumps in one. A simple change of impeller and intake ring makes it possible to adjust to the desired capacity and head.
- Compact design and a high-output air motor give the DIP pumps very high capacity in relation to petrol and electric motors of the same weight.
- Submersible with a non-return valve (optional) mounted, or alternatively a hose connected so that the air outlet is above the surface.

Large grip

For easy handling.

Air intake

With a strainer that prevents contaminants entering the pump.

outlet (Thread G 2 1/2)

With a connection for hoses.

Intake

With a strainer at the base that prevents larger particles passing through the pump and which gives the pump good stability.

Description	DIP 35
Head max (m)	35
Flow max (l/s)	22
Air requirement max (l/s)	70
Weight (kg)	23
Height (mm)	435
Length (mm)	235
Width (mm)	288
Fluid outlet (inch)	G 2 1/2
Air inlet (inch)	G 3/4
Air outlet (inch)	G 1 1/2

DISTRIBUTORS OF:

*Air Hose & Fittings * Drilling Equipment * Osha Safety Valve * Anto-Loaders * Heaters / LPG Static & Mobile * Pedestal & Wall Fans * Blast Hole Plugs * Pneumatic Chain Saws&Pumps * Blowers & Extractors * Hose Suction & Delivery * Pollution Control Equipment * Impact Wrenches * CP,Hitachi,Kango Tools * Pump Submersibles, End Suction * Compressors * Integral Steels * Reversing Cameras & Alarms * Lubricators * Camlock & Bauer Type Couplings * Scabbling Equipment * Digger Steels * McDonald Paving Breakers * Selwood Pumps
