# FORWARD PLATES

Stone Forward Plates - the #1 selling plate in North America - delivers superior performance. Exclusive eccentric housing is an integrated part of the base plate, so vibration is more effectively transferred to the ground. And, since the eccentric is mounted forward of the engine, Stone forward plates deliver faster travel speeds, higher amplitudes and increased climbability.

### Features

- Eight different models each with several engine options to cover a full range of asphalt and dirt applications - the most complete plate line in the industry.
- Patented one-piece base plate design includes an extra large oil reservoir that dissipates the internal heat to the entire plate surface. Cools the oil inside and preheats the base plate for more efficient performance on asphalt.
- One-year base plate and two-year eccentric bearing warranties.
- Synchronized drive system requires only one belt for efficient power transfer.
- Patented offset eccentric sheave eliminates belt stress for extended belt life.
- Single-piece, heavy-duty centrifugal clutch delivers greater reliability.
- Dual-stage shock mounts provide superior vibration isolation to both the operator and the engine.
- 12 litre removable polyethylene water tank won't rust. Optional for asphalt models.
- Ramped leading edge gently climbs onto uncompacted surface assuring even, progressive compaction.
- Self-cleaning base plate eliminates rock and dirt buildup for easier maintenance.
- Small, lightweight SFP2200/SFP2200A.
- Asphalt Specific Plate - SFA3500 designed with unique base geometry, eccentric placement, amplitude and VPMS for optimal performance on asphalt. Custom water system and removable tank provide smooth, even finishes.
- Roll cage protects engine and components.
- Patented sprinkler system with SnapTek™ coupler to connect to the water tank. The system coats the base with an even flow of water.

### Specifications

Model	Operating Weight (kg)	Plate Size- (W x L) (cm)	Engine Options (kW)	Water System	Eccentric Force (kN)
SFP2200/SFP2200A	140 lbs. (64)	13" x 21" (33 x 53,3)	Honda GX120, Subaru EX13	Yes on SFP2200A	2200 lbs. (9,8)
SFP3000/SFP3000A	205 - 210 lbs. (93 - 95)	20" x 24" (51 x 61)	Honda GX160, Subaru EX17	Yes on SFP3000A	3000 lbs. (13,35)

RIGHT BUILT – BRED TOUGH – BORN TO WORK
